Brennan's Excavations is a leader in the excavation industry. As an innovative company with a proven track record, it aims to deliver solutions in the excavation Industry for industrial, commercial & residential consignments. We strive to provide modern, well-equipped and maintained machinery with a quality, experienced and competent team of operators and field support.

We fully comply with all environmental and occupational, health and safety requirements. We have been responsible for:

- Ensuring that heritage listed structures are protected and not desecrated during consignments.
- The safe demolition of many structures located within the Sydney Water Catchment Authorities secure locations.
- The successful remediation of many environmentally significant contaminated sites in South West Sydney area.
- Relocating high voltage cables and laying new cable runs.
