Quality, Safety And Environmental Policy

Brennan's Excavation is a supplier of a variety of excavation and associated services to domestic, industrial and commercial activities in and around Sydney.

Our aim is to ensure that our business success is accompanied by leading quality, safety and environmental practices.

Our objectives:

- Zero harm to people and the environment.
- To work in a responsible manner.
- Provide the highest quality workmanship to all our customers.

Our methods:

- Continuously optimize management systems relating to quality, safety, and the environment by analyzing performance; correcting and preventing action; and through audits and management evaluations.
- Comply with all applicable quality, safety and environmental legislation, relevant industry standards and other requirements E.G. codes of practice.
- Maintain an externally certified management system.
- Reduce the incidence of waste, conserve resources in particular water and energy.
- Provide a safe working environment for all employees, contractors and hire labour.
- Provide quality service performance.
- Employing contractors who aspire to the same quality, safety and environmental standards.
- Ensure the quality, safety and the environmental policy is effectively implemented and publicly available.
- Record, analyze, and evaluate performance.
- Document, analyze, and evaluate relevant experience and undesirable incidents (including near-miss incidents and observations).

Regards.
